

The Awty International School Houston

Foreign cultural exchange and sharing is woven through Awty's curriculum; it is integral to many of the school's activities and sponsored events, and is further realized in the daily interaction of faculty and staff with members of the Awty community intentionally hired for their diverse backgrounds. By utilizing structured instructional activities, educators of foreign nationalities introduce aspects of the culture from their country of origin into their lessons to enrich the student experience. Awty provides direct opportunity for the American public to acquire French language and to be immersed in French culture and tradition. The continuous culture sharing takes place not only in the structured classroom lessons, but also in the summer camp offered to the public.

To find out more about our cultural events, click on the calendar link to see school scheduled opportunities. We regularly collaborate on events with partner agencies, and host seasonal camps to improve language, athletic, and mathematic capacity.
